Transport for NSW – Draft Future Transport Strategy 2056

1. The Tourism & Transport Forum Australia (TTF) welcomes the opportunity to provide a submission to the *Draft Future Transport Strategy 2056*. TTF is a national member-funded forum that advocates for the public policy interests of leading corporations and institutions in the Australian tourism, transport and aviation sectors.
2. TTF congratulates the NSW Government for developing a cohesive long-term strategy about the future role of transport in NSW. TTF also commends the NSW Government for its collaborative approach with stakeholders from across NSW in developing the *Draft Future Transport Strategy*.
3. An efficient, reliable, affordable and sustainable transport network is essential for the future prosperity of the NSW economy. To this end, it is pleasing that the NSW Government is actively considering the mobility challenges of the future such as sustainable transport funding, alternative fuel sources and the role of technology.
Draft Greater Sydney Services and Infrastructure Plan
4. TTF supports the Greater Sydney Commissions land use and transport vision for Sydney, and welcomes the coordination of planning between the Greater Sydney Commission and Transport for NSW in developing the *Draft Greater Sydney Services and Infrastructure Plan*.
5. The concept of 'three cities', consisting of the Eastern Harbour City, the Central River City and the Western Parkland City will redefine land use and transport planning in Sydney, providing more connected and liveable cities, provided the right investment decisions are made.
